## Problem and Challenges

In organizing such type of activity, we face some problems and challenges. There are so many students registered their names and contact details every year, but in orientation session we have 60 to 70% students from the list. Due to some problems, they are unable to attend the orientation session. To tackle this type of situation we now conducted online session for them. They can attend the session from everywhere. We also send the reading material to them on their what's app group.
