About the Conference:

The international conference on “Integrating Wisdom and Technology: Indian Knowledge System, Artificial Intelligence, and Human Resilience for a Sustainable Future” serves as a dynamic platform for scholars, researchers, and professionals to explore the synergy between traditional wisdom and modern technological advancements. This conference aims to highlight the relevance of the Indian Knowledge System (IKS) in the contemporary era, emphasizing its intersection with artificial intelligence (AI) and the role of human resilience in fostering sustainability.

By integrating ethical and philosophical insights from IKS with cutting-edge AI developments, the discussions will focus on innovative solutions for global challenges, including education, governance, healthcare, and environmental sustainability. Experts from diverse fields will deliberate on how AI can be harnessed responsibly, ensuring a balance between technological progress and ethical considerations. The conference will provide valuable insights into how the fusion of ancient wisdom and modern technology can contribute to a sustainable and resilient future for humanity.
